Our Safeguarding Commitment

As an agency of the Archdiocese of Brisbane, we have a zero tolerance for all forms of abuse and are committed to safeguarding everyone involved in its activities, ministries, and services. The safety and wellbeing of children and adults-at-risk is paramount.

Accessibility

Brisbane Catholic Education is committed to providing accessible services to people from all culturally and linguistically diverse backgrounds. If you have difficulty understanding this document, you can contact Translating and Interpreting Service National on 13 14 50 to arrange for an interpreter to translate it for you.

Acknowledgement of Country

Together let us have a sense of the importance of the Country upon which we are standing,

where learning and ceremony has taken place over many thousands of years.

Let us sense the land beneath our feet and acknowledge to whom it belongs, the Turrbal and Yuggera Peoples, and pay our respects to their Elders and all Elders, past, present and emerging.

Introduction

> **Because wherever a child or vulnerable person is safe, there you serve and honour Christ.**
>
> Pope Francis written address to the Pontifical Commission for the Protection of Minors' plenary assembly in Rome March 24-28, 2025.

St Anthony's School, KEDRON is committed to creating environments where children and young people feel protected, valued, and heard. Safeguarding is a shared responsibility, and every child has the right to grow and thrive free from harm.

We are guided by our Christian Catholic Tradition and the teachings of Jesus Christ who advocated for the protection of children and the marginalised. Our mission to teach, challenge and transform through our educational endeavours is actioned by Catholic Social Teaching, as part of the Archdiocese of Brisbane.

The Queensland Government recently introduced new Child Safe Standards. These Standards clearly outline what child safe organisations must do to create environments where children are protected, respected and able to speak up. They focus on building safe, welcoming cultures, hearing and valuing children's voices, working closely with families, celebrating diversity, making sure the right people work with children, responding quickly to concerns, and always looking for ways to improve safety.

> The Archdiocese has **zero tolerance** for all forms of abuse and is committed to safeguarding everyone involved in its activities, ministries, and services. The safety and wellbeing of children and adults-at-risk is paramount.

Throughout 2026, our school will review its compliance against the new Child Safe Standards using a phased approach in line with Queensland Family and Child Commission guidelines. We will review, self-assess and report against selected Standards each term, building towards full implementation and continuous improvement across all Standards by the end of the year. This staged process allows St Anthony's School to embed the Standards meaningfully and ensure our practices reflect the needs, voices and safety of our students.

As a Catholic school within the Archdiocese of Brisbane, we honour the Archdiocesan Safeguarding Commitment and uphold the values of Catholic education in our safeguarding practices.

This School Safeguarding Plan is developed in consultation with students, families, and employees, and is contextualised to our local school environment. It reflects our commitment to continuous improvement, cultural safety, and child-centred practice, and is supported by both Brisbane Catholic Education policies and procedures and school-specific safeguarding actions. Further Information about BCE wide practices can be accessed here.

For more information or to request accessible formats, please contact the school Principal.

The Child Safe Standards

Standard 1: Leadership and Culture
Child safety and wellbeing is embedded in the entity's organisational leadership, governance, and culture.

Standard 2: Voice of children
Children are informed about their rights, participate in decisions affecting them and are taken seriously.

Standard 3: Family and community
Families and communities are informed and involved in promoting child safety and wellbeing.

Standard 4: Equity and diversity
Equity is upheld and diverse needs respected in policy and practice.

Standard 5: People
People working with children are suitable and supported to reflect child safety and wellbeing values in practice.

Standard 6: Complaints management
Processes to respond to complaints and concerns are child-focused.

Standard 7: Knowledge and skills
Staff and volunteers of the entity are equipped with the knowledge, skills, and awareness to keep children safe through ongoing education and training.

Standard 8: Physical and online environments
Physical and online environments promote safety and wellbeing and minimise the opportunity for children to be harmed.

Standard 9: Continuous improvement
Implementation of the Child Safe Standards is regularly reviewed and improved.

Standard 10: Policies and procedures
Policies and procedures document how the entity is safe for children.

Universal Principle
Requires child safe entities to provide an environment that promotes and upholds the right to cultural safety.

Safeguarding Focus Areas

The 10 standards are grouped under four key focus areas:

The Universal Principle

Ensuring cultural safety through the Universal Principle is essential for Aboriginal and Torres Strait Islander students and families.

While the Principle intentionally focuses on First Nations children, the cultural safety indicators which make up the Principle are designed to adopt a proactive and comprehensive approach to safeguarding, ensuring that policies, and practices are inclusive for all children, particularly those who may be marginalised or vulnerable.
The Universal Principle is embedded within all 10 Standards.

Cultural Safety Indicators

1 **Transformational unlearning** – Organisations must challenge unconscious bias, racism, and discrimination within their structures and workforce.

2 **Negotiating values, motivations, and paradigm** – Policies and programs should be co-designed with Aboriginal and Torres Strait Islander communities to reflect their perspectives on child safety.

3 **Prioritising social and emotional wellbeing and health** – A holistic, strengths-based approach must be adopted to support the wellbeing of Aboriginal and Torres Strait Islander children, staff, and families.

4 **Sharing power and decision-making** – Decision-making processes should be led or co-led by Aboriginal and Torres Strait Islander peoples to ensure genuine partnerships.

5 **Sharing resources** – Organisations should dedicate resources to Aboriginal and Torres Strait Islander led initiatives, research, and governance mechanisms, where appropriate.

6 **Creating a strategic enabling environment** – Leadership must set clear priorities and accountability structures ensure cultural safety into daily operations.

7 **Operating on Aboriginal and Torres Strait Islander terms of reference** – Service delivery to Aboriginal and Torres Strait Islander children should be grounded in Aboriginal and Torres Strait Islander knowledge systems and self-determination principles.

8 **Accountability and continuous quality improvement** – Progress should be measured using Aboriginal and Torres Strait Islander-defined success indicators, ensuring sustained improvement.

The Cultural Capability Framework

This framework enables Brisbane Catholic Education to develop a workforce grounded in Aboriginal and Torres Strait Islander cultural humility, enabling responsive and innovative practices that contribute to Reconciliation. The Cultural Capability Framework and Molum Sabe assists our workforce to critically reflect on individual and organisational practices and develop effective practices across four cultural standards:

Teaching

Culturally responsive teachers and education professionals create the conditions for respectful relationships with Aboriginal and Torres Strait Islander peoples, and learning of knowledges, identities, cultures and languages.

Relationships

We develop relationships and connections with Aboriginal and Torres Strait Islander employees, students, families and communities to build and sustain inclusive and culturally safe practices and environments.

Environment

We establish an inclusive and culturally safe environment, where Aboriginal and Torres Strait Islander employees, students, families and communities feel a sense of belonging and connection.

Leadership

All employees are accountable for building and sustaining inclusive and culturally safe practices and environments with Aboriginal and Torres Strait Islander employees, students, families, and communities. Leaders have additional responsibilities to articulate a clear vision and provide ongoing cultural capability development opportunities for employees.

Standard 1: Leadership and Culture

Child safety and wellbeing is embedded in the entity's organisational leadership, governance, and culture[1]

Brisbane Catholic Education's commitment to Standard 1

At BCE, student safety is central to how we plan, think and act, shaping a safeguarding culture that protects their safety and wellbeing. We use a whole of organisation approach; led by strong leadership, embedded in practice and supported through shared responsibility. Clear policies, codes of conduct, Student Protection Processes and risk management plans set behavioural expectations and guide how we keep children safe. Our Safeguarding Policy aligns with the Archdiocese of Brisbane Safeguarding Framework and is available on our website. Leaders are accountable for ensuring these requirements are followed and continually improved. Safeguarding is a system critical foundation of the BCE Strategic Plan 2025–2027 and an identified enterprise risk, monitored through regular monitoring, internal audits and escalation pathways. Governance transparency is reinforced through quarterly reporting to the BCE Executive Team, Safeguarding Committee and Catholic Education Council, including assessments of practice effectiveness and improvement progress. We take a strong stand against discrimination, bias or harm toward any child and are committed to cultural safety for Aboriginal and Torres Strait Islander peoples.

What Standard 1 looks like at our school:

This School Safeguarding Plan is publicly available on St Anthony's school public website. This is our commitment to ensuring our school is a child safe organisation which prioritise the safety and wellbeing of every student. Our School Safeguarding Plan also demonstrates how we do this at St Anthony's School within the context of the Queensland Child Safe Standards.

Brisbane Catholic Education has a Code of Conduct for employees which outlines the behaviour standards of every staff member. We share a student-friendly version of the BCE Code of Conduct for Employees with students, called 'Rules for Adults' which explains in age-appropriate language how adults at school must behave to keep students safe.

At St Anthony's, we ensure our Student Protection Contacts (SPCs) are highly visible and consistently promoted within our school community. The first slide of every whole-school Assembly presentation clearly highlights our SPCs, including photos and names, so that students and parents regularly see and recognise who they can speak to if they have a worry. This deliberate and repeated practice reinforces our message that student safety is a shared priority and that trusted adults are always accessible and approachable.

Before every school event, excursion, incursion, we complete a risk assessment which specifically includes considerations about students' safety and wellbeing relevant to the activity such as supervision ratios, student privacy, transport arrangements, and consent for photos or recordings.

Every year, we host a student protection parent and carers information sessions workshop as part of our Parents and Friends Advisory Group meeting where we explain safety and wellbeing processes and all families can ask questions.

At St Anthony's, risk management is strengthened through principal-led, face-to-face mandated student protection training delivered during staff meetings. These sessions focus on preventing, identifying and mitigating risks to children by reinforcing staff understanding of indicators of harm, professional boundaries, safe practices, and clear reporting pathways. The Principal contextualises mandated training to the school environment, using real-life scenarios and emerging risks to ensure staff are confident to identify concerns early and respond promptly and appropriately to safeguard students.

x

[1] Alignment with National Catholic Safeguarding Standard (NCSS): Standard 1: Committed Leadership Governance and Culture | Working with Children (Risk Management and Screening) Regulation 2020 (Qld), Schedule 1, Section 2(1), (2)(a) and (2)(b) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) s 6 (1), (2) and s9 (e)

Standard 2: Voice of children

Children are informed about their rights, participate in decisions affecting them and are taken seriously[2]

Brisbane Catholic Education's commitment to Standard 2

We strive to create a culture where every child feels safe, heard and confident to share their ideas or concerns. Our employees and volunteers are supported to engage respectfully with students, listen carefully, and respond to their immediate needs. BCE's school safeguarding storybooks and animation series help explain our policies, processes and key safeguarding concepts to students in age appropriate ways. We also support schools to deliver Consent and Respectful Relationships Education so students understand their rights, identify trusted adults, and build positive, healthy and respectful relationships. Each year, students across all BCE schools are invited to share their views through the *Tell Them From Me* survey. This feedback helps us understand how students are feeling, their concerns and how we can strengthen safety and support in our schools. Our Student Voice Program gives students a platform to contribute to BCE wide decisions affecting their safety, wellbeing and learning. Our Archdiocesan First Nations Student Representative Council and our Aboriginal and Torres Strait Islander Education Team help co-design culturally safe policies and practices.

What Standard 2 looks like at our school:

Students learn about their rights to safety, information and participation through Health and Physical Education (AC v9.0), Consent and Respectful Relationships Education, The Resilience Project and school wellbeing initiatives. Learning focuses on protective behaviours, respectful relationships, consent, help-seeking and online safety. These messages are reinforced through assemblies, classroom discussions and student wellbeing activities. Students are regularly reminded who their trusted adults are, including teachers, support staff, school leaders and Student Protection Contacts (SPCs), with SPC information displayed and promoted throughout the school.

Student voice is gathered through leadership groups, classroom discussions, wellbeing surveys, restorative conversations, student check-ins and consultation processes. In 2026, students across year levels contributed to this feedback regarding safety, belonging and participation as part of the school's self-assessment process. Student feedback is reviewed alongside wellbeing, behaviour and safeguarding data to identify strengths, trends and areas for improvement.

Student feedback helps shape wellbeing initiatives, student support practices, leadership opportunities, playground initiatives and safeguarding priorities. Student voice is considered when reviewing school practices and informing improvement planning.
St Anthony's is committed to ensuring all students can access information, support and participation opportunities in ways that are inclusive, culturally safe and responsive to their needs. Student voice processes seek feedback from students with diverse experiences, including Aboriginal and Torres Strait Islander students, students with disability and students from culturally and linguistically diverse backgrounds. Through inclusive practices, targeted support and ongoing engagement with First Nations perspectives, we strive to ensure every student feels respected, valued and confident to speak up.

[2] Alignment with National Catholic Safeguarding Standards: Standard 2 Children and Adults Are Safe, Informed and Participate | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(8) (a) (ii) | Education (Accreditation of Non-state schools) Regulation (Qld) 2017 s 16(4) (a)–(b)

Standard 3: Family and community

Families and communities are informed and involved in promoting child safety and wellbeing[3]

Brisbane Catholic Education's commitment to Standard 3

Student safety, wellbeing and learning are best supported when families and schools work together and share responsibility for protecting students. At BCE, we believe informed and engaged families and communities are essential to creating safe learning environments. We support schools to partner with families in ways that are consistent, respectful, culturally safe and shaped by local needs. We also make sure families and community members have clear, accessible information about our safeguarding approach and how to raise concerns. Each year, parents and caregivers share their perspectives through the *Tell Them From Me* Parent Survey. This feedback helps BCE understand family experiences and concerns, guiding improvements that make our schools safer and more supportive for students.

What Standard 3 looks like at our school:

St Anthony's School communicates student safety and wellbeing information through newsletters, leadership communication, parent meetings, the Pastoral Board, the Pastoral Care Parent Program and the P&F Advisory Group. Families are informed about Student Protection Contacts, reporting pathways, wellbeing initiatives and the school's approach to safeguarding through regular communication and engagement opportunities. Families are encouraged to ask questions and contribute feedback about student safety and wellbeing.

The school uses existing community events and gatherings, including assemblies, liturgical celebrations, community breakfasts, parent information sessions and wellbeing events, to promote key messages about child safety, wellbeing and inclusion. These opportunities support relationship-building and help ensure safeguarding information is accessible and relevant to families.

Families contribute to school decision-making through consultation processes, survey feedback, representative groups and participation in school forums (Pastoral School Board and P&F Advisory Group). Feedback from families is considered when reviewing school practices, wellbeing initiatives and improvement priorities.

St Anthony's is committed to providing information, support and participation opportunities that are welcoming, inclusive and culturally responsive. Through community partnerships, consultation processes and ongoing communication, we seek to ensure all families feel valued, informed and able to contribute to student safety and wellbeing.

[3] Alignment with National Catholic Safeguarding Standards: Standard 3 Partnering With Families Carers And Communities | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(8) (a) (ii) | Education (Accreditation of Non-state schools) Regulation (Qld) 2017 s 16(4) (a)–(b)

Standard 4: Equity and diversity

Equity is upheld and diverse needs respected in policy and practice[4]

Brisbane Catholic Education's commitment to Standard 4

Every student deserves to flourish and has the right to learn in a safe, supportive and inclusive environment, free from discrimination, bullying and harassment. BCE supports all students, regardless of background, identity or ability, to access and fully participate in their learning. We embed equity at the heart of our culture through the Student Diversity and Inclusion Policy, the Student Wellbeing Policy and the Queensland Catholic Education Council's Inclusive Practice in Catholic Schools. We expect school practices to reflect each child's circumstances and needs, and to prioritise culturally safe, trauma informed approaches in planning, communication and engagement. The Engage Student Support System and the Multi Tiered System of Supports (MTSS) help schools provide a student centred, comprehensive continuum of support. These systems enable collaborative, targeted and personalised assistance for diverse learners. We also provide children with opportunities to learn about different cultures, people and communities through the Aboriginal and Torres Strait Islander Histories and Cultures Cross Curriculum Priority and the Australian Curriculum.

What Standard 4 looks like at our school:

St Anthony's School is committed to creating a safe, inclusive and welcoming environment where all students feel respected, valued and able to participate fully in school life. Through targeted support, differentiated adjustments, wellbeing programs and inclusive practices, we respond to the diverse needs of students, including Aboriginal and Torres Strait Islander students, students with disability, EAL/D learners and students requiring additional wellbeing support

Students access support through a range of wellbeing and safeguarding processes, including Student Protection procedures, targeted School Officer support, Guidance Counsellor services, Requests for Support processes, wellbeing programs and collaborative planning involving families, teachers and support staff. Students are explicitly taught who they can talk to if they are worried or unsafe, with Student Protection Contacts and reporting pathways regularly promoted through assemblies, classroom discussions and safeguarding resources.

Staff are committed to providing culturally safe and trauma-informed support. Student wellbeing, behaviour, engagement and safeguarding data are regularly reviewed to identify students or cohorts who may require additional support and to inform early intervention strategies. Inclusive practices are strengthened through collaboration between the Leadership Team, Student Protection Team, Learning Support Team, Guidance Counsellor and families. St Anthony's values Aboriginal and Torres Strait Islander perspectives and recognises the importance of cultural safety in promoting student wellbeing and belonging. Through curriculum learning, school-wide acknowledgement of significant First Nations events, engagement with community groups and ongoing consultation processes, we continue to strengthen culturally responsive practices and ensure all students feel safe, connected and included.

[4] Alignment with National Catholic Safeguarding Standards: Standard 4 Equity Is Promoted And Diversity Is Respected | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(3) (a) (ii) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) s 11, s 15 (a)

Standard 5: People

People working with children are suitable and supported to reflect child safety and wellbeing values in practice[5]

Brisbane Catholic Education's commitment to Standard 5

BCE supports schools to ensure that everyone working or volunteering with students is suitable, safe and capable of upholding child safety and wellbeing. Our recruitment and screening processes embed safeguarding at every stage, from role design and advertising through to interviews, reference checks, onboarding and performance development. The Employee and Volunteer Screening Procedure includes a role risk matrix, Blue Card screening requirements and clearly defined responsibilities. These help leaders identify potential risks to student safety and wellbeing and respond appropriately. BCE's Human Resource Information System, Ignite, operationalises these procedures and helps employees monitor and maintain their safeguarding screening requirements. Our Procurement Procedure requires all external providers engaging with BCE offices or schools to be child safe and compliant with relevant legislation. The Risk Management Framework guides how we monitor safeguarding practices in schools through established quality control mechanisms. These processes ensure schools can safely engage employees, volunteers and third parties, with appropriate oversight, training and supervision in place before any child related work occurs.

What Standard 5 looks like at our school:

In line with our implementation plan, at the end of Term 4 we will explain:

- How we screen and onboard employees, volunteers and third parties
- How we ensure safe supervision and conduct
- How we apply BCE recruitment and HR procedures for employees and volunteers
- How we track and keep safeguarding screening requirements current
- Evidence of practice and planned improvements

[5] Alignment with National Catholic Safeguarding Standards: Standard 5 Robust Human Resource Management | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(8)(b) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) s 15(b)

Standard 6: Complaints management

Processes to respond to complaints and concerns are child focused[6]

Brisbane Catholic Education's commitment to Standard 6

BCE fosters a culture where concerns about safety and wellbeing can be raised openly, respectfully and without fear. We support child focused complaint pathways that are accessible to students, families, employees and community members. Our policies and procedures outline reporting requirements, cooperation with authorities, and expectations for timely and safe responses to concerns. From 1 July 2026, BCE will implement Queensland's Reportable Conduct Scheme. This means BCE will report any reportable allegation or conviction, conduct investigations, provide interim and final reports to the Queensland Family and Child Commission, and immediately notify police of any suspected criminal conduct within required timeframes. BCE provides guidance and training to ensure complaints are handled in trauma informed and culturally safe ways, supported by Aboriginal and Torres Strait Islander Participation Officers and expertise from safeguarding, student protection, legal, wellbeing, school operations and program teams, and employee relations and investigations teams. System wide improvements are strengthening complaint handling processes, creating clearer pathways and embedding safeguarding expertise across the framework. These structures help schools respond to concerns with transparency, sensitivity and procedural fairness.

What Standard 6 looks like at our school:

In line with our implementation plan, at the end of Term 3 we will explain:

- How students and families can raise concerns
- How the school ensures child-focused, trauma-informed responses
- How complaints are recorded, managed and escalated and resolved
- How the school implements the Reportable Conduct Scheme
- Evidence of practice and planned improvements

[6] Alignment with National Catholic Safeguarding Standards: Standard 6 Effective Complaints Management | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2 (4) (b) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) 7 | Child Safe Organisations Act (Qld) Chapter 3

Standard 7: Knowledge and skills

Staff and volunteers of the entity are equipped with the knowledge, skills, and awareness to keep children safe through ongoing education and training[7]

Brisbane Catholic Education's commitment to Standard 7

BCE builds a confident, capable and culturally aware workforce committed to children's safety and wellbeing. Our Mandatory Safeguarding Training Framework sets clear onboarding and refresher requirements for all employees. Every year, BCE employees complete online student protection training covering indicators of child harm, grooming behaviours, how to respond to disclosures and mandatory reporting requirements. School staff also participate in additional face to face training each term on topics related to student safety and wellbeing. Staff who serve as Student Protection Contacts (SPCs) receive advanced training in managing disclosures and supporting colleagues to keep students safe. Volunteers and third party providers complete mandatory safeguarding onboarding before commencing any child related work, along with annual refreshers recorded in school registers in line with the Volunteer Policy and Procedure and Third Party Safeguarding Guidelines. BCE has developed a Cultural Learning Plan and Cultural Capability Framework to strengthen cultural competency and responsiveness, promote cultural safety and BCE's Ngutana-Lui Centre provides curriculum-aligned cultural learning for students and staff. All employee training is tracked through BCE's Learning Management System (iLearn), which issues automated reminders and provides compliance reports to managers.

What Standard 7 looks like at our school:

In line with our implementation plan, at the end of Term 4 we will explain:

- How employees, volunteers and third parties complete required safeguarding training
- How the school reinforces safeguarding practice throughout the year
- How cultural capability is embedded in training
- How the school monitors and supports employees and volunteers to undertake mandatory training
- Evidence of practice and planned improvements

[7] Alignment with National Catholic Safeguarding Standards: Standard 7 Ongoing Education and Training | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(8)(b) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) sch 3 s 4(c)

Standard 8: Physical and online environments

Physical and online environments promote safety and wellbeing and minimise the opportunity for children to be harmed[8]

Brisbane Catholic Education's commitment to Standard 8

BCE is committed to creating healthy, safe and productive physical and online environments that support student wellbeing, prevent harm and safeguard everyone involved in our activities. We take a holistic, strengths-based approach that recognises all dimensions of a child's wellbeing – physical, social, spiritual, emotional and cultural. Building plans are reviewed with a focus on environmental risks that may affect children's safety. The BCE Health, Safety and Wellbeing (HSW) Policy and BCE Safeguarding Guidelines for School Design provide practical guidance to build safe, inclusive spaces with strong visibility, supervision and access control. To support online safety, BCE aligns with the eSafety Commissioner's Best Practice Framework and delivers the Australian Curriculum for Online Safety (P–10). The Acceptable Use of Devices and Digital Resources agreement promotes safe digital behaviour and is supported by content filters and monitoring tools. Policies such as the Employee Code of Conduct, IT Acceptable Use Policy and Privacy Policy outline expectations for safe online behaviour. BCE provides guidance to help schools maintain safe digital environments, and student safety considerations are embedded in risk assessments, school risk registers and organisation wide risk management processes.

What Standard 8 looks like at our school:

In line with our implementation plan, at the end of Term 3 we will explain:

- How physical spaces are designed and supervised for safety
- How the school promotes online safety for students
- How employees' model safe digital behaviours
- How both physical or online environmental risks are assessed and managed
- Evidence of practice and planned improvements

[8] Alignment with National Catholic Safeguarding Standards: Standard 8 Safe Physical And Online Environments | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld) s 18 (1) s19

Standard 9: Continuous improvement

Implementation of the Child Safe Standards is regularly reviewed and improved[9]

Brisbane Catholic Education's commitment to Standard 9

BCE is committed to continual review, learning and strengthening of safeguarding practice across both system and school levels. Ongoing improvement ensures our policies, frameworks and practices evolve in response to emerging issues, data and feedback, and remain effective in preventing harm and promoting wellbeing. System wide reviews are carried out by the Assurance Team, Risk and Compliance Team and through school accreditation processes. These reviews assess the effectiveness of safeguarding measures and identify opportunities to strengthen practice. Critical incidents also trigger structured post incident reviews to identify risks, evaluate responses and enhance wellbeing supports for students and employees. Governance committees, including Safeguarding, Risk and Assurance, and People and Safety, monitor trends and support system wide improvements. Schools are supported to monitor their own safeguarding indicators, such as Blue Card compliance, attendance, bullying and wellbeing data, enabling a local cycle of review, reflection and continuous improvement.

What Standard 9 looks like at our school:

At St Anthony's School, we are committed to continually strengthening the way we respond to student protection matters. At the end of each term, our SPC team meets to review our school processes and procedures which are based on the Student Protection Processes and Guidelines. We use real scenarios from our school to ensure our processes remain practical, current and responsive. These reviews make sure our child safety practices evolve as our school community grows and changes. St Anthony's School is currently self-assessing against the Child Safe Standards (including the Universal Principle). This involves consulting with key stakeholders, reviewing our school's relevant safeguarding data and reflecting on our safeguarding strengths, as well as areas for improvement.

At St Anthony's School, our Student Protection Contact (SPC) Team meets every month. This ensures our SPC's are staying up to date with any student worries and ensures our students have the right supports in place when they need them. Our team is able to look at matters wholistically, identify trends in student behaviour and work proactively to keep every student safe and well.

In the last term of each year, the Principal includes information in the school community newsletter about how the school has progressed with its Annual Improvement Plan Goals, including a strong focus on student engagement and attendance, and the school's plans moving forward into the new year.

With the implementation of the Child Safe Standards in Queensland in 2026, St Anthony's School is undertaking a comprehensive and progressive review of all aspects of student safety and wellbeing. Across 2026 we will self-assess against all ten Child Safe Standards (including the Universal Principle), through consultation with a diverse range of students, families, and staff, review of safeguarding data, and reflection on existing strengths and areas for improvement. Findings from this process will inform ongoing actions and be documented in our School Safeguarding Plan, which will be regularly updated and available on our website to ensure our families and broader community can clearly see how St Anthony's School prioritises the safety and wellbeing of all students.

At St Anthonys School, every staff member, from teachers to grounds staff, has a clearly defined safeguarding responsibility outlined in their role description. These responsibilities are reviewed annually to ensure all adults understand their role in maintaining a child safe environment.

[9] Alignment with National Catholic Safeguarding Standards: Standard 9 Continuous Improvement | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) sch 1 s 2(6)(a) | Education (Accreditation of Non-State Schools) Regulations 2017 (Qld) s 20

Standard 10: Policy and procedures

Policies and procedures document how the entity is safe for children[10]

Brisbane Catholic Education's commitment to Standard 10

The Archdiocese of Brisbane Safeguarding Framework guides safeguarding practice across all Catholic entities, including BCE. The BCE Safeguarding Policy sits within this framework and is supported by a range of policies, procedures and guidelines designed to protect student safety and wellbeing. Under the BCE Policy Governance Framework, all policies are reviewed at least every three years through consultation, governance checks and formal approval. This ensures they remain current, reflect best practice and continue to support student safety, wellbeing and cultural safety. Consultation ensures policies reflect lived experience and meet the diverse needs of school communities. BCE is also working to make policies easier to understand and use, including creating child friendly resources. Policies and procedures are accessible to students, families, volunteers and third parties through BCE and school websites, and are available internally to employees through Spire. Safeguarding responsibilities are embedded in the BCE Leadership Capability Framework, ensuring leaders consistently communicate, model and apply policy requirements.

What Standard 10 looks like at our school:

At St Anthony's School, we adhere to BCE policies and procedures. These are placed in a visible location in the school office, as well as on the school website. To help families understand key student safety processes, such as reporting concerns or expectations for safe parent volunteering, we provide regular reminders in the newsletter. These accessible formats ensure every family understands how St Anthony's School keeps children safe.

Our onboarding process for new staff at St Anthony's School includes a briefing on the location, content and application of safeguarding policies and procedures and we talk through how our school is a child-safe environment (i.e. how we meet the child safe standards day to day.)
When updating procedures and processes at St Anthony's School, we consult with staff, parents, students and our School Board to ensure our procedures are practical, relevant and aligned to contemporary expectations for child safety.

At St Anthony's School, members of the Leadership Team, including the Principal, regularly reinforce key safeguarding procedures during staff meetings and model them in everyday practice, such as always signing in visitors, maintaining appropriate boundaries, and following reporting pathways consistently. St Anthony's School's SPC Team meets monthly to confer on current student protection matters, ensure student safety remains a top priority, ensure actions are clearly documented, and confirm that the SPC Team is responding to student protection matters in line with the Student Protection Processes and Guidelines.

All staff at St Anthony's School complete an annual safeguarding refresher that includes scenario-based learning, ensuring they understand how to apply policies in real world situations. This supports consistent implementation across the school.

All people who volunteer at St Anthony's School receive a brief orientation before beginning their role, which reinforces the information they get in their mandatory training includes clear guidance on appropriate interactions, supervision expectations, and what to do if they are worried about a student. This helps ensure volunteers uphold the same standards as paid staff. Teachers incorporate reminders of key safeguarding practices into daily routines - for example, ensuring students know who the SPCs are at St Anthony's School by pointing out their photos on the SPC posters that are in each classroom, reviewing safe movement procedures, and modelling respectful communication.

[10] Alignment with National Catholic Safeguarding Standards (NCSS): Standard 10 Policies And Procedures Support The Safety Of Children And Adults | Working with Children (Risk Management and Screening) Regulation 2020 (Qld) s 2 (3-6) | Education (Accreditation of Non-State Schools) Regulation 2017 (Qld)
